

TO CORRESPONDENTS.

"R. Callow."—No bill for the embankment of the Thames has been brought into the House of Commons during the present session; nor has any formal notice of an intention to bring in a bill for such purpose been given. Lord Lincoln stated in the House some time since, that he should probably do so.

"A Constant Reader."—The London address of Mr. Galloway is Galloway, Brothers, West-street, West Smithfield. Mr. Galloway is at present in Egypt.

"W. C." (Winchester).—The Health of Towns Commission includes the Duke of Buccleuch, Lord Lincoln, Mr. Robert A. Stanley, Mr. George Graham, Sir Henry De la Beche, Dr. Lyon Playfair, Dr. Reid, Mr. Richard Owen, Captain Denison; Mr. J. R. Martin, Mr. James Smith, Mr. Robert Stephenson, and Mr. William Cubitt.

"A Landowner" should make an arrangement with some respectable solicitor. From two to three guineas for agreement and copy, and seven guineas for lease and counterpart if on one skin (in both cases exclusive of plan) would be reasonable charges. If the lease require two skins, eleven guineas.

"Holloway Congregational Chapel."—A competitor wishes to know if a design has been selected.

"Architectural Modelling."—Frederick Wetherall, 114, Great Park-street, Kyngington-cross, who modelled the gates of the triumphal arch at Hyde-park-corner, the frieze at Buckingham-palace, ornaments of Sun fire-office, &c., being out of employ and in distress, has appealed to us to make the same known.

"Vigil."—Our present impression certainly is that, notice having been given of the erection of the buildings as shops under the old Act, and no alteration made, that a fresh notice is not called for. As, however, we understand that it has been ruled differently, we must give the question further consideration.

"A.B.O."—A communication is lying at the office.

"R.B.W." (King's Langley), and "W.P." (Woodbridge), under consideration.

"T.L." (Pentonville Prison).—We are much obliged by the loan of the drawing, and propose to engrave it.

"C.T.L." wishes to know the best mode of coating plaster of Paris figures, so as to give them the appearance of marble.

Received: "W. J. S." "Scrutator," "G. Ridley," and "I. L." (Temple).

Received: Second Report from Health of Towns' Commissioners—Prospectus of Victoria Park Cemetery Company.

E. WOLFF & SON'S

NEWLY-INVENTED

MATHEMATICAL PENCILS.

FOR

MATHEMATICIANS, ARCHITECTS, & ENGINEERS.

Warranted to retain a very fine Point.

E. WOLFF AND SON, in introducing their Extra Hard Lead Pencils for Mathematical and Architectural purposes, beg to draw attention to the advantages resulting from their adoption in preference to the ordinary Pencils. They are made to six distinct sizes, by which means they can be fitted to all instruments, and are so constructed that each Pencil may be cut in halves without waste; thus making two Pencils each of a length, and most convenient for use, and obviating the difficulties existing with respect to the ordinary Pencils.

E. W. and Son have also half-round Pencils, suitable for the Spring Bow, thus preventing the necessity of dividing the Pencil down the center. They are made of extremely Hard Lead, of the finest quality, which will retain a very fine point and give a clear, even, and distinct line.—Price 4s. per dozen.

PATTERN OF SIZES.

1 round 2 3 4 5 6

A Sample of each size will be sent by Post to any part of the Kingdom, on the receipt of Postage Stamps equal to the amount.

Drawing Pencils of the best quality, for Architects and Engineers, warranted free from grit; the blue and white are particularly recommended.—Price 5s. per dozen.

May be had of all Instrument Makers and Stationers, and at the Manufacturers', 23, Church-street, Spitalfields, London.

FOX'S PAPER VARNISH, 6s., 8s., and 12s.

12s. per gallon; satin size, 21s. per cwt. Carriage Varnish, 10s. per gallon, warranted to stand for outside work; every description of "driers" and "decoration" materials, Burnish gold size, &c., and 1d. 6d. oil gold size, &c., and 1s. 6d. per lb., warranted; burnishers, pencils, tips, gold, &c., per 100. Grainers' colours kept ground; badgers, combs, &c.—At the manufactory, 30, Old Compton-street, Soho. Prices lower than any other house. Strong and clear size always ready. N.B. Country orders attended to with dispatch.

WALLIS'S PATENT LIQUID WOOD

KNOTTING.—This newly-discovered Liquid Composition which Messrs. Geo. and Thos. Wallis have the satisfaction of introducing to the trade, possesses the important qualification of effectually stopping Knots in Wood, however bad, and preventing them eating through and disfiguring the paint above.

Many substances have been used and much time spent in endeavouring to find a cure for a bad Knot, but hitherto without success. Messrs. Wallis therefore feel much pleasure in offering to the public an article so long and anxiously called for.

In the application, skill is not required; a boy can use it as well and effectually as the best workmen: it is put on to the work with a brush like common paint, can be used in all climates and situations, and does not require heat.

Sold wholesale and retail, by Messrs. G. and T. Wallis, Varnish, Japan, and Colour Manufacturers, No. 64, Long Acre. Price 70s. per gallon.

VARNISH.—It has long been a desideratum

amongst the consumers of Varnish to obtain a good and genuine article; brilliancy, facility of drying, hardness, and durability are the qualifications necessary, but these are seldom if ever found united. The experience of a life-time devoted exclusively to the manufacture of this article, the great and important discoveries of modern chemistry, and the daily improvements in machinery, have enabled Messrs. George and Thomas Wallis to produce Varnishes (both oil and spirit) unrivalled in every respect, and they confidently recommend them to the trade, as deserving of notice both in price and quality.

Builders, Coachmakers, Painters, and others may depend on being supplied with a genuine and unadulterated article, Fine Oil Varnish, from 10s. per gallon; best White Spirit Varnish, 21s. ditto; Best Spirit French Polish, 30s. ditto; White Lead Oil, Turps, and Colours of every description at the very lowest prices.—WALLIS'S Varnish, Japan, and Colour Manufactory, 64, Long-acre, one door from Bow-street. Established 1730.

TO BUILDERS and ARCHITECTS.

LAND may be had for building, under circumstances of a peculiarly favourable character, in the immediate vicinity of a railway, and within six hours' distance from the metropolis. It is the object of the proprietor to establish a town upon his estates, their locality being such as, in the judgment of some of the most eminent men in the trade, to make the success of the project certain, and to secure very great profit to those who embark in the undertaking. Full particulars will be explained, and plans and elevations of the intended buildings will be exhibited, on application at the office of G. M. Wathen, Esq., architect, Carlton-chambers, 12, Regent-street, or to Mr. George Stephen, 17, King's-arm-yard, Coleman-street.

HIP TILES to suit slate roofs in colour, Ridges, with plain or related joints, roll tops, and vertical ornaments; drains, many sizes, with plain or related joints; paving in squares, hexagons, octagons, &c., 40 cent colour; roofing, in Grecian or Italian styles, also devices also, or plain; conduits, which do not injure pavements; fire-bricks and tiles; clinkers, and out-door paving; sundry wall-coping, garden-borders, chimney-tops; an tubular and other uses of peculiar material. No agent, but a depot at WHITEFRIARS, and 22, WATER-LANE, FLEET-STREET, LONDON, under Mr. PEAK'S personal care, to supply genuine TERRAZZO-METALLIC goods at low prices as is of quality.

The TILERIES, TUNSTALL, STAFFORDSHIRE, near the centre of England, whence boats are sent direct to any inland place; or to the Mersey for the coast, the nearest and cheapest.

HATCHER'S BENNEDEN TILE MACHINE. Manufactured and Sold only by **JOHN TAYLOR & HALL, ENGINEERS**, Agricultural Implement Makers, &c., 2, WINSLEY-STREET, OXFORD-STREET, LONDON.

This is the most efficient Machine that has been invented for the purpose of making Drain Tiles. Any shaped tile can be made by merely changing the die, which can be done in a few minutes. It requires but two hands, viz. a man and three boys. With this amount of labour, the product of a day of 10 hours is as follows, viz.:

1 inch diameter of Tile, 11,000
1 1/2 inch diameter of Tile, 8,000
2 inch diameter of Tile, 5,000
2 1/2 inch diameter of Tile, 3,000
3 inch diameter of Tile, 2,000
3 1/2 inch diameter of Tile, 1,500
4 inch diameter of Tile, 1,000
4 1/2 inch diameter of Tile, 750
5 inch diameter of Tile, 500
5 1/2 inch diameter of Tile, 350
6 inch diameter of Tile, 250
6 1/2 inch diameter of Tile, 150
7 inch diameter of Tile, 100
7 1/2 inch diameter of Tile, 75
8 inch diameter of Tile, 50
8 1/2 inch diameter of Tile, 35
9 inch diameter of Tile, 25
9 1/2 inch diameter of Tile, 15
10 inch diameter of Tile, 10
10 1/2 inch diameter of Tile, 7
11 inch diameter of Tile, 5
11 1/2 inch diameter of Tile, 3
12 inch diameter of Tile, 2

The Machine is moveable down the drying-sheds, so that it requires no extra boys, to carry the Tiles, nor are they required in drying. It has been in full operation upwards of four months at Hempstead Park, near Frodoe, Kent. No charge made for Patent duty or Invention. The purchase of the machine includes free use of it.

The attention of the unassured portion of the community cannot be too pointedly drawn to the unusual advantages offered to the Public by this Society over those of most others, as it enables all classes to effect life assurance in the manner most convenient to themselves, and amount of its popular features that of allowing the Assured by 3) to leave WALLY TRUST ANNUAL PAYMENTS unpaid for one year, will not be found unwelcome public attention.

Immediate and deferred ANNUITIES, and every description of Life Assurance business, undertaken by this Society.

Prospectuses and all other requisite information will be furnished on application to the Secretary, or the Local Agents of the Society.
